Title: DISHWASHER WITH A DOOR SEAL

Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

**INFORMATION DISCLOSURE STATEMENT**

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

FR 2 788 841 discloses that this seal system, especially for an insulated oven door, has the rear surfaces of the door perimeter and facing surface of the oven surround shaped to form a chicane (31), with an air flow created at the top of the door passing through a gap (49) between the inner surface of the door and oven surround inside the door's peripheral seal (38) and into the door cavity. The peripheral seal is situated as far as possible from the edge of the oven opening.

DE 39 19 773 discloses that the door (12) is hinged to a portion of the housing (10) with an elastic sealing member (13) fitted into a recess (15) of the housing, with one lip (16) bearing upon the inside face (11a) of the door, and another lip (17) upon its edge (11b). In its unstressed condition the edge lip (17) makes an acute angle (19) with the other lip (16). A fold (22) of the sealing member (13) becomes deformed into a hollow space (21) when the door (12) is moved (20) into its closed position.

Attorney Docket No. 2003P01958WOUS

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" is included with the aforementioned copies of those applications, patents and/or publications, it is because no existing translation is readily available to the Applicants. As per the Notice in 1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted

Russell W. Warnock
